

Telangana People Request SKC to Do

From:

The Telangana.com Forum members,

Subject: Telangana People Request SKC to Do!

Dear Honorable Members of Sri Krishna Committee (SKC), Government of India, New Delhi

Telangana people need your help desperately to free themselves from the deceiving Andhra politicians, cunning Andhra officials and aggressive people of Andhra region settled in Hyderabad and other Telangana areas. We have listed below some of the ways you can help the Telangana people.

1. Please Wipe out the Tears of Telangana People Immediately by Declaring Separate Telangana State

As an eleven years old elementary school student/child I have participated during the 1969 separate Telangana agitation. Many people have lost lives during that struggle and mothers and relatives of the persons died during agitation have cried. Neither the deaths nor the cries of family members have resolved the Telangana issue even after more than four decades. During the elections to the Parliament (i.e. Lok Sabha) and State Assembly elections during that time, Telangana people elected most of Telangana leaders, who supported Telangana state. However, the Congress government has bribed the elected Telangana leaders with lucrative political positions and huge sums of money and all the Telangana leaders have duped Telangana people and jumped the Telangana party and joined the Congress party.

- Please stop the decades of injustice to the people of Telangana.
- Please submit a strong report recommending separate Telangana state and wipe out this endless aggression on Telangana people by the politicians of Andhra region.

According to the Transparency International's 2009 Corruption Perceptions Index (CPI),
http://www.transparency.org/news_room/in_focus/2009/gcr2009

India ranks 85th out of 180 countries in the Corruption Perception Index

<http://business.rediff.com/slide-show/2009/sep/25/slide-show-1-india-among-most-corrupt-nations.htm>

These corrupt Andhra politicians for sure must be bribing, the central leaders, and preventing the declaration of Telangana state.

Over the decades, these Andhra IAS officials in the Secretariat and Andhra politicians together, have been diverting the Telangana River Waters, major portion of central funds allocated to the state, etc to benefit the Andhra people in Krishna, Godavari deltas and making them filthy rich. Now, they have plenty of underground black money in suitcases to bribe the central leaders and officials.

- Only way out to become free from the clutches of these dirty Andhra politicians is to get separate Telangana state.

2. Please Separate Telangana People from these Andhra Rulers

My parents used to tell me that the Telangana people suffered tremendously in the hands of Razakars during Nizam rule prior to the police action initiated by the brave Sardar Vallabhbhai Patel. Then Andhra Rulers came with the stupid Vishalandra (merger of Telangana and Andhra) idea. My parents used to tell me that the Telangana people protested the merger idea by saying “Vishalandra Maa Kakkara ledu (we do not need combined state)”. Please bring an end to the misery of Telangana people from the domination of Andhra politicians.

3. Please Be the Bhagavan Sri Krishna and Bring Freedom to the Telangana Mother, like the God Sri Krishna Brought Freedom to his Mother Devaki Devi and his Father Vasudeva

Most of the Telangana people are silent majority. These people have been going through very tactical and strategic oppression inflicted upon them by these clever and aggressive Andhra officials, politicians and the selfish Andhra people settled in Hyderabad and other Telangana places. These Andhra settlers have made Hyderabad a hell for the Telangana people living in Hyderabad for generations. The land prices have sky rocketed, streets are jammed with heavy traffic, air in Hyderabad is highly polluted and not breathable. While the Andhra people have occupied high paying government jobs, Telangana people have been delegated to the lower level, low paying jobs or the day laborers. Consequently slums are mushrooming in Hyderabad. Andhra rulers knew that the Telangana people have been demanding separate state for decades. Andhra rulers have been cleverly robbing Telangana natural resources to Andhra and looted the Telangana. Please bring freedom to Hyderabad and Telangana from the clutches of the Andhra fellows.

4. Please Count how many Andhra IAS, IPS and other highly paid officials are in Telangana

Most of the IAS, IPS and other government officers are Andhra people. Since Andhra people came to dominate local Telangana people and occupy the Hyderabad city, root out the Telangana dialect, and the unique accent of Telangana people, with mass migration from Andhra region, they took the

advantage of low level education skills of Telangana people (due to Urdu imposition on them by the Nizam rulers), Andhra people quickly occupied the high level positions, that required communication with the central government in English. Then these high level Andhra officials have skillfully and tactfully modified project plans (such as Nagarjuna Sagar Dam to submerge Telangana district of Nalgonda in water, while water from canals are planned to take water to Andhra districts of Krishna, Guntur etc), diverted central funds, and bribed few Telangana politicians who questioned these unjust practices. We need to eliminate this unfair disparity immediately by sending all officials of Andhra descent from Hyderabad (secretariat) and Telangana district collector offices, Police commissioners offices, police control room in Hyderabad etc back to the Andhra region immediately.

5. Please Count how many Telangana mulki (native) IAS, IPS and other highly paid officials are in Telangana

Most Telangana people are self blaming by saying this is our fate, this is what the God has given for me etc. With this kind of beliefs, the Telangana people were letting all the good job opportunities to be occupied by the Andhra people. Under this situation, central government has the responsibility to prevent the injustice caused by the aggressive region to the less outgoing people. Central government has not played any level playing game at all. Telangana people have been deprived of everything.

6. Please Count how many Telangana IAS, IPS and other highly paid officials are in Andhra Region

Relative to the number of Andhra people in Telangana, there are hardly any Telangana people in Andhra region. Even if some Telangana people dare to go to the Andhra region, they will soon come back due to the unfriendly attitude shown by the Andhra local people and co-workers. Therefore, this has been a one sided mass migration from Andhra region to Telangana region. This disparity can only be eliminated by the formation of separate Telangana state.

7. Please Count how many Andhra Judges are working in Telangana

This has been NOT a level playing field. This field has been highly against the people of Telangana. Andhra officials, Andhra politicians and selfish Andhra settlers have deceived the unsuspecting people of Telangana and converted this field to be highly in favor of Andhra region people settled in Hyderabad.

That is the reason why the Andhra people do not want to leave Hyderabad. These Andhra people are NOT the people came to Hyderabad for earning a livelihood. They did not come as common citizens. They came with full force to dominate, subjugate, deceive, occupy, rule and rob the innocent people of Telangana. If they did come to work cohesively with the Telangana people, in mutually helpful

ways, then they will not divert River waters to Krishna, Guntur, East/West Godavari and other Andhra districts. People who plan to stay permanently will not do that kind of diversions. These Andhra people knew, however long they live in Telangana, sooner or later they have to go to their region. These people have already robbed plenty of Telangana blood and sweat.

These Andhra judges must be ashamed of even calling themselves the judges. They have been blocking justice to the people of Telangana for almost five decades. It is high time they leave Telangana, please.

Only Telangana State can make the field free from these Andhra politicians, Andhra bureaucrats, and the so called Andhra judges. Then the people from Telangana will be able to play the game. Until Telangana state is achieved we will not be able to play the game. Please help the people of Telangana by making the Telangana state a reality.

8. Please Count how many Telangana mulki (native) Judges are Working in Telangana

Relative to Andhra judges, Telangana judges are much smaller in number. In their own region, Telangana judges are far fewer is not a good indication. Telangana people need real justice. Only separate Telangana state can help.

9. Please Count how many Telangana Judges are Working in Andhra Region

Most probably none or we can count them on our fingers if we can find any. Why this one sided dominance by the Andhra region people?

10. Please Ask How many Telangana People are Working in Andhra Region

Again very few Telangana people may be working in Andhra region. The reason is hostile working and living environments displayed by Andhra region people towards the Telangana people. Andhra people show their dislike for Telangana language, accent and the food we eat.

11. Please Ask, Why Can't Andhra People live in their Region, Why mass migration to Hyderabad and Telangana

Yes, they can live in their region. Instead they are coming to Telangana and using clever tactics to divert all river waters, mineral wealth and central funds. Once Telangana is depleted of its wealth,

they will go back to their region and enjoy the ill acquired wealth from Telangana with their children and grand children.

12. Please Talk to the Parents and Close Relatives and Close Friends of Telangana Persons who Committed Suicide

For any parents, loss of their child's life is unbearable and their pain and suffering stays with them rest of their life. It is the responsibility of the elected politicians and bureaucrats to resolve these issues quickly without causing delay. Please let the separate Telangana state happen immediately.

13. Please Read Suicide Notes of all Telangana Persons who Committed Suicide

Please read all the suicide notes of all genuine Telangana suicides and please grant Telangana state so that the souls of the persons committed suicides and their parents, and relatives stay in peace.

14. Please Recommend in your Report to the Government that Separate Telangana State Formation will Definitely Reduce Many Future Suicides

By delaying Telangana state, we will giving opportunity to others who may commit suicide or persons may die during their participation in the Telangana agitation. Please let us prevent such future deaths by granting Telangana state immediately.

15. Please Make Sure to Bring Hope to the Telangana People Fed up and Tired of the Corrupt Andhra Politicians, IAS and IPS Officers

There is a saying that "A dog's tail can't be straightened by tying to it a stone. As soon as the stone is removed the tail curls up again." These corrupt and immoral Andhra officials and politicians can never be stopped from their robbing of the Telangana people. Separate Telangana state is the only solution.

Once Telangana state is formed, the politicians and official of Telangana region will have to stay in Telangana, they will be afraid of doing rampant corruption.

16. Please Report that, Along with the Modern Excellent Quality Service Oriented Economies of World, Telangana State can Easily be Viable and be Successful

During these days, with the light speed of internet communication and global business and marketing opportunities, many small nations, such as Dubai, Singapore and many European nations, with the size of a small city are prospering and shining very much and providing good life to their citizens. Telangana as a small state can definitely be successful. Please let us help by unmerging Telangana state.

17. Please Visit at least few Villages from each of the Telangana Districts and Talk to the Telangana People

Please visit the Telangana villages and talk to the villagers and their employable youth suffering from the lack of opportunities for better life. Please recognize that the Andhra politicians, officials and Andhra people have no interest in Telangana state. Please take the Andhra people away from the backs of the Telangana people.

Respected members of the SKC committee, please note that the above listed suggestions are only few from the hundreds of such unfair practices imposed upon the people of Telangana by the Andhra people. People of Telangana have no trust in these Andhra people. Please bring immediate end to their aggression on the people of Telangana.

Please divide the state and bring peace to the people of Telangana. People of Telangana will be thankful to you as the members of the Sri Krishna K commission, when they get the Telangana state. Otherwise, people of Telangana have no alternative but to continue to fight peacefully and forcefully until their demand for Telangana state including Hyderabad is met. Please do not let the people of Telangana lose trust in the central government.

Please do the needful to the people of Telangana.

Yours very sincerely,
Telangana.com forum members
